Martin Cannon

Biography of Martin Cannon

The man known as Martin Cannon (only one of his many nommes-de-guerre) has long been recognized as an important player on the international political/occult scene. He is a leading member of many secret societies, including the Priory of Zion, P2, the Knights of Malta, Opus Dei, the Thule Society, the Ordo Templi Orientis (whose members refer to him as the mysterious "HB"), the Golden Dawn, the Jason Scholars, the CFR, the Gustav Mahler Appreciation Society, the Democratic Party, and, of course, the dreaded Illuminati. Cannon was asked to join the last-named society in 1972, at the age of fourteen, when his precocious inquiries into the nature of anti-gravity brought him to the attention of his secret mentors, the Rothschilds.

After a brief stint at CIA ("Too confining," Cannon now says), he went on to assignments for other intelligence organizations, such as NRO, DIA, ONI, the British SIS, the Nigerian BRO, the under-utilized PP, and, most recently, MOSSAD.

Cannon's extraordinary work in the fields of post-quantum physics and espionage has prompted his secret sponsors to cover up his many crimes, which include drug smuggling, rape, and numerous murders (his most famous alleged victim being Nicole Simpson). He is a protected individual; insult him at your peril.
EXARP BITOM AFFA!

None of the above is true, but it seems to be what people want to believe.....
